## AIRPLANES

Airplanes are amazing. How does something so big and heavy get off the ground? I'm always amazed at how the millions of different parts work together. Travelling by airplane is always a wonderful experience. I don't care whether economy class is cramped and has no space. I like playing with the in-flight entertainment system, especially now they have all the latest movies. I also love airplane food. Many of my friends say it's disgusting, but I love it. I often ask the passenger next to me if I can have the dessert or roll they don't want. The only thing I don't like about planes is turbulence. When the airplane hits those air pockets, I always worry we'll crash. But I once read that turbulence has never caused an airplane to crash.
