

LISTENING

WEATHER

- Listen and take notes.

1. What does the weather mean to different people?
2. What happens when it snows in England?
3. Where did the man live before?
4. How does the man describe the weather in the place he lived before?
5. How often did he look at the weather forecast before?
6. How is global warming changing the desert?
7. How is global warming changing the rainforests?
